NAMING THE MARINERS

The nickname "Mariners" was selected by the ownership of the Seattle franchise after a "Name the Team Contest" that resulted in over 15,000 entries and over 600 different names being submitted.

When the name "Mariners" was chosen, all the entries suggesting the name were reviewed for their reasons (in 25 words or less).

The winner was Roger Szmodis of Bellevue, Wash. His entry read, "I've selected Mariners because of the natural association between the sea and Seattle and her people, who have been challenged and rewarded by it."

KINGDOME SEATING

GROUND RULES

1) **Photographers' Area:** The ball is in play if it hits retaining wall and bounces back onto playing field.
2) **Batted Ball Hitting Speakers or Roof:** In FAIR territory—in play and judged fair or foul in relation to where it lands or touched by a fielder. If caught, the batter is out and runners advance at their own risk.
   In FOUL territory—is automatically a foul ball. If caught the batter is out, and runners advance at their own risk, otherwise ball is dead.
3) **Outfield Area:** Fairly batted ball in left, center or right field hitting above yellow line is a home run. If ball strikes protruding objects from recessed football bleachers in right and right center, it is automatically a home run.
   Any ball bouncing above yellow line is automatically a two-base hit.

SPEAKER NOTES

Foul pops had been the only times the Kingdome speakers had ever come into play in 1977-78, the Mariners first two seasons. But in 1979 strange things began to happen.

Batted balls have twice hit speakers in fair territory in the Kingdome, both in 1979. On Apr. 25, Boston's Butch Hobson was robbed of an apparent home run when his shot hit the speaker in left center. It fell for a triple. On June 5, Willie Horton was robbed of what appeared to be his 300th career homer, when he hit the speaker in left field. It fell for a single vs. Detroit.

Twice batted balls have hit speakers in foul territory and been caught, again both in 1979. The first was Aug. 3, when Oakland pitcher Matt Keough caught a foul pop by Tom Paciorek off the basketball speakers above first base. On Sept. 3, first baseman Bruce Bochte caught a foul pop off the bat of Texas' John Ellis that hit a speaker just past first base.

One foul pop stuck in the speaker above the first base dugout, when Rupe Jones fouled one off on Aug. 4, 1979 vs. Oakland. It was ruled a strike.

On July 10, 1979 vs. New York, Leon Roberts' foul pop hit a speaker and lengthened his stay at the plate. On the next pitch he homered to help beat the Yankees 5-1.

Gary Nicholson enters his fourth season as trainer of the Seattle Mariners in 1980. He joined the club in its inaugural season, 1977, after spending twelve years in the Chicago Cub organization. After seven years of work in the minor league system of the Cubs, he worked in the majors from 1972-76. Gary lives year-round in Tacoma. He has worked at Pacific Lutheran University during the off-season as an instructor of injury prevention and therapy, as well as a supervisor of the training room, since 1973. Nicholson, who will be 36 years old in April, earned a degree in physical education from the College of Idaho (in Caldwell) and a master's degree in health and sports medicine from Indiana University. He is the only trainer to serve in the All-Star Game for both leagues. He represented the National League in 1973 at Kansas City, and the American League in 1979 at Seattle.

*Extra inning game r—Relief decision PITCHER IN CAPS—Complete game

ITEMS OF INTEREST

SAVE RULE—A relief pitcher shall be credited with a save when he meets all three of the following conditions: 1.) he is the finishing pitcher in a game won by his club; 2.) he is not the winning pitcher; and 3.) he qualifies under one of the following conditions; a.) he enters the game with a lead of no more than three runs and pitches for at least one inning, or b.) he enters the game with the potential tying run either on base, at bat, or on deck (i.e., the potential tying run is either already on base or is one of the first two batsmen he faces), or c.) he pitched effectively for at least three innings.

FREE AGENT DRAFT RULE—A BRIEF SUMMARY: Major League and National Association clubs meet twice a year for the purpose of drafting free agent player talent. . . The winter meeting is conducted by conference phone. . . Selection of a free agent entitles the club to the exclusive right of negotiation with that player for a specified period (from date of selection until 15 days prior to next draft meeting).

There are two phases to each draft meeting:

(1) Regular Phase—Clubs choose in inverse order of major league standings, selecting free agents and previous draftees who had not signed contracts but had instead enrolled in four-year colleges and since had either completed his junior year or become 21 years of age. . . Each organization may select only one player for each of its major league, AAA and AA rosters but is not limited to the number of picks for "A" level. . . Minor league clubs select in the same relative order as their parent clubs.

(2) Secondary Phase—Selection of free agents who had been drafted previously but who had not signed contracts before the negotiation right expired (except those draftees who had enrolled in a four-year college and had since graduated or become 21 years of age—now drafted in Regular Phase). . . It is possible for a club to redraft a player whom it had been unable to sign after the original selection, but only with the express written consent of that player. . . The order of selection is by lot with the 26 major league clubs divided into two 13 team groups with the groups alternating having first selections in respective drafts.

DESIGNATED HITTER RULE—A hitter may be designated to bat for the pitcher in any spot in the batting order in any game without affecting the status of the pitcher. The designated hitter must be selected and be included on the lineup cards presented to the umpire-in-chief prior to the game. Failure to do so precludes the use of a designated hitter for that game. The designated hitter is "locked" into the batting order but may be removed for a pinch-hitter or pinch-runner, who in turn becomes the designated hitter. The designated hitter, while still in the game, may be used defensively but the pitcher then assumes the batting order of the replaced defensive player, thus terminating the designated hitter role. The designated hitter is eligible for all American League batting titles.

MAJOR LEAGUE TRADING REGULATIONS—A.L. waivers *are not necessary* to assign a player contract from one club to another within the league *from midnight on the last day of the season thru midnight, June 15 (Pacific time).*

A.L. waivers are necessary to assign a player contract from one club to another within the league *from 12:01 A.M., June 16 thru midnight, the last day of the season (Pacific time).*

A.L. waivers are necessary before a player contract may be assigned from the American League to the National League except during inter-league trading periods. Both A.L. and N.L. waivers are necessary *between 12:01 A.M., June 16 and midnight, the last day of the season.*

INTERLEAGUE TRADING PERIODS—From 12:01 A.M. on fifth day after completion of world series thru midnight preceding the last scheduled day of the winter meetings, and from 12:01 A.M., Feb. 15 thru midnight, March 15.

BATTING/PITCHING (ERA) CHAMPION QUALIFICATIONS—502 or more plate appearances, 162 or more innings.

ROOKIE QUALIFICATIONS—A player shall be considered a rookie unless, during a previous season or seasons, he has (a) exceeded 130 at bats or 50 innings pitched in the major leagues; or (b) accumulated more than 45 days on the active roster of a major league club or clubs during the period of the 25-player limit (excluding time in military service).

PLAYER LIMITS—25 players from opening day through August 31. . . 40 players from September 1 through end of season. . . Players in military service do not count against the under control list while on active duty. Upon separation from the service, a player will be reinstated to his club's normal player limits after he has completed a 15-day trial period or has participated in a championship game, whichever comes first.

DEFINITION OF NIGHT GAME—Any game scheduled to start after 6 p.m. will be considered a night game. If a game is scheduled to start at 6 p.m. and is delayed for any reason, it will be considered a day game. If a game is scheduled to start at 6:01 p.m., it will be considered a night game. Twi-night double-headers shall be included in double-header statistics and shall be considered two night games. When afternoon and night games (separate admissions) are played on the same date, the games shall be day and night and count as single games.

AMERICAN LEAGUE CURFEW RULE—All night games must be called at 1 a.m. local time. But if an inning is started prior to 1 a.m. city time, it can be completed.

GAME-WINNING RBI—The game-winning RBI became an official baseball statistic in 1979. It is determined by the "run batted in that gives a team a lead that it never relinquished."

MAJOR LEAGUE SERVICE: Baseball measures service in years and days (years + days). 172 days on the active roster during the regular season constitutes a full year.
